

Jons J. BERZELIUS
(Uppsala, 1802)

Heinrich ROSE
(Kiel, 1821)

© Dr. John Andraos, 2002

Wilhelm H. HEINTZ
(Berlin, 1844)

Johannes WISLICENUS
(Zurich, 1860)

William H. PERKIN, Jr.
(Wuerzburg, 1882)
- malonic ester synthesis 1907

Sir Robert ROBINSON
(Manchester, 1909)
Chemistry Nobel Prize 1947
- curly arrow notation for
reaction mechanisms 1922 - 1932
- electronic theory of organic chemistry 1926
- flavylium salts 1926
- Robinson annulation 1935

 **John T. EDWARD**
(McGill, 1942; Oxford)
- Edward-Lemieux
anomeric effect 1955+

Richard A.Y. JONES
(Cambridge, 1961)

Alan R. KATRITZKY
(Cambridge, 1958)

Michael V. SINNOTT
(East Anglia, 1968/9)

Oswald S. TEE
(East Anglia, 1967)
- principle of least
motion applied to
organic reactions 1969

Thomas T. TIDWELL
(Harvard, 1964; East Anglia)
- persistent silylketenes 1999
- persistent bis(trimethylsilyl) ketenes 1999

 **Andrew J. BENNET**
(Bristol, 1985)
